NB

The quality of pine doors varies greatly across the country and from retailer to DIY store. Not to be confused with the many pine doors of inferior quality on the market, our range of Brazilian clear Pine is selected from the highest quality materials. All pine doors supplied at 40mm (1.5/8") thickness.

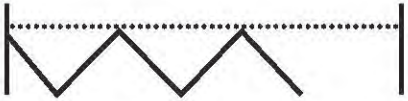
Add flexibility to your home with our room fold doors which fold back to create open living spaces between rooms.
5 Door Room Fold

1830mm - Three Door

2440mm - Four Door



3050mm - Five Door

3660mm - Six Door (Option 1)

3660mm - Six Door (Option 2)

An internal twist on our popular patio door system, this new room divider is perfect for any home wanting to have privacy between two rooms with the option of open plan living on demand.

The Room Fold is supplied for installation with a frame pack, hardware pack and door pack. The top hung brushed stainless steel hardware bears all the weight of the glazed panels, providing effortless finger tip smooth sliding operation.

Designed in popular widths the full height glazed door panels ensure maximum amount of light into both rooms at all times, and with the option of matching single doors to suit the rest of the home, the Room Fold is sure to give your home a designer feel.

Available in a choice of eight glazed panel designs in a range of four widths:1830mm, 2440mm, 3050mm, 3660mm. Door configuration 'L' or 'R'

Detailed technical brochure available on request

Create the look

Your home entrance should be visually striking and inviting. Finish the look by adding glass panels in the surrounding door frame.

External Doors

Careful design and balance is the intention behind our external range of doors, all the while ensuring technical excellence and structural stability for long lasting beauty and operation.

Our external doors are fixed with traditional Mortice and Tenon joints, ensuring stability and longevity.

An engineered construction gives greater stability than solid timber doors, environmentally friendly yet retaining the look and feel of a solid door.

Pre glazed doors are supplied with obscure double glazing or triple glazing, including multi-faceted glass bevels and leadwork that capture light like no other glass can.

Doors supplied unfinished unless otherwise stated.

Create the look

Skirting and Architrave are well matched with Hockey Sticks, Window Boards and Square edges.

Skirting & Architrave

Never underestimate the added aesthetic and value that skirting and architraves can make to the overall appearance of your home. It not only frames your doors and entrances but adds the finishing touch to your home.

We stock a wide range of skirting and architrave making your shopping experience much simpler and varied. Our staff are on hand to advise you on the best products to compliment your existing doors and home interior.

Create a modern look with our Chamfered and Rounded products or if you prefer the more classic look then Ogee Moulded products are ideal for you.

NB

Redwood and Solid Wood options available.

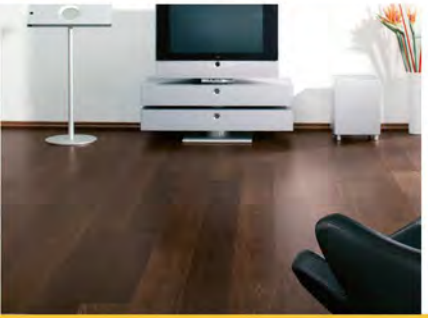
We have a vast range of floors to suit all tastes and budgets. Whether its laminate or solid our staff will talk you through your options.



A quality timber floor is timeless. It will enhance the warmth of any home and compliment the décor of any room. Whether you are looking for the clean contemporary look of walnut or the more traditional appearance of oak, we have an extensive range of floors to suit, with different styles and colours to choose from: Laminates Solid Wood, Engineered and Semi-Solid.

We also offer a range of flooring underlays, the benefits of which are: Sound Reduction, Thermal Insulation, Moisture Barrier, Levelling Abilities and Easy Installation.

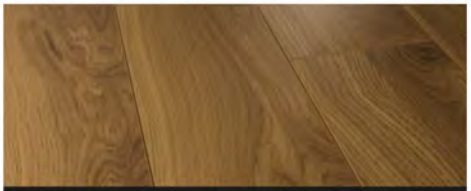
The state of the art technology and range of choices of today's stains, finishes, styles and designs makes timber flooring one of the most practical, easy to maintain and versatile floor coverings.

This is just a small glimpse into the range of flooring available at Doorways. A wide range is available in store to order.

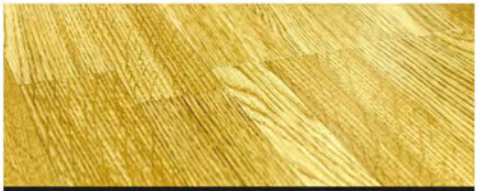
LAMINATE FLOORING

Laminate Flooring

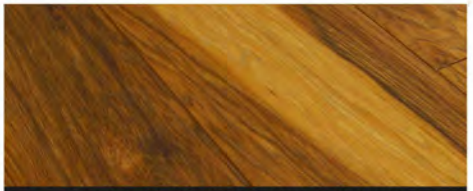
A laminate floor is ideal for creating a modern or traditional look and is both a low cost and low maintenance substitute to solid wood. Ranging from 6mm to 12mm in a wide range of colours and finishes, there is a laminate floor to cater for every home.



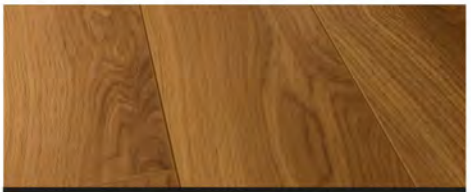
Docloc 12mm Junior Natural Oak



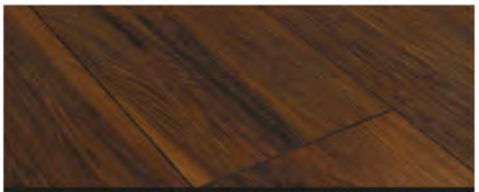
7mm V-Groove Oak



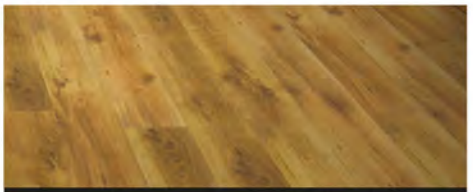
Docloc 10mm Appalachian Hickory



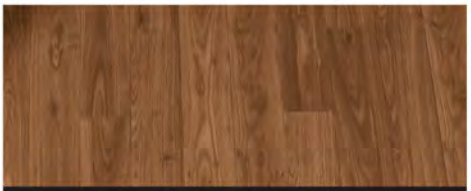
12.3mm 4V Natural Oak



Docloc 10mm Red River Hickory

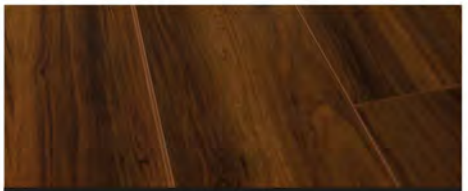


Kronotex 7mm 5G Rustic Oak



Kronotex 7mm 5G 3 Strip Walnut

Premier - Canadian Elm



12V Jr Walnut

Solid Flooring

Solid wood floors are unsurpassed in their beauty, warmth and longevity. Every solid wood floor is a beautiful and individual piece of timber, with a timeless quality that never goes out of style. After years of use they can be sanded to renew its original state. However, this can now also be achieved with an engineered floor, which has other benefits aside.

125mm Oak

120mm Maple

Acacia

108mm Canadian Maple

Engineered & Semi-Solid Flooring

Engineered flooring is becoming increasingly preferred over solid wood flooring because it is much more structurally sound. Manufactured from layers of wood pressed together in a crossed grain format, with a top layer of genuine timber. Once installed it looks exactly like its traditional counterpart. A semi-solid floor is ideal for refurbishment or replacement of other floor coverings due to its 14mm depth. Its 3mm top ensures it can be sanded back to its original state up to three times in the future.

At Doorways we will take care to supply you with the best quality doors and floors available but once the materials have been left out of our care we have no control over the conditions to which they are exposed.

Doors and floors must be stored flat, in a dry and well ventilated area, allowing time to acclimatise before fitting.

Please follow the manufacturer's instructions carefully on the hanging and treatment of doors. Each door is packaged with this information. We would advise that this information is retained for future reference.

Please refer to our standard conditions of sale for further details. A fact sheet on the care and maintenance of doors is available on request.
