

# HORIZONTAL PUMPING STATION

Enjoy complete peace of mind with our Pumpstor Commercial range. When power supplies fail, Pumpstor Commercial responds instantly, separating liquids and solids into a separate chamber and storing waste for up to 24 hours. Once power is restored, the pumps will work normally again without further maintenance.

## TECHNICAL INFORMATION

Tank Size (mm)	Capacity Up To (Ltrs)	Tank Material	Control Panel	Alarm	Pump Type
2600 Diameter	79,000	GRP	Included	Standard	Single/Twin

## OVERVIEW

### FEATURES AND BENEFITS

Minimal on-site assembly, saving you time and money

One-piece tank chamber for easy installation

High-level alarm for complete peace of mind

Weir screen features innovative removable filters, so there's no need to access the chamber during maintenance - best for on-site health and safety

Single-tank installation up to 79m<sup>3</sup> (multiple tank systems available)

Multiple valve chamber location and invert options

Totally sealed system

Less craneage and shallower excavation than concrete pumping stations
