

The components are manufactured from high grade pre-primed polyester coated aluminium.

- Provides full wind uplift and rain protection.
- Patented 'Drip System' which allows for self drainage of rain water into the gutter.
- Extremely easy and quick to install.
- Requires no maintenance once installed.
- Can be fully customised.
- Extensive range of colours available.

2 Slate Trim Type 2 Aluminium
Overall length: 3050mm

Natural Slate ■ Standard Slate

The technical drawing illustrates the dimensions of the 2 Slate Trim Type 2 Aluminium. The main profile is shown in a cross-section view with the following dimensions: a top width of 20mm, a total height of 25mm, and a base width of 38mm. The profile is divided into two sections: a 59mm section on the left and a 55mm section on the right. The 59mm section has a 5mm wide top flange. The 55mm section has a 22mm wide top flange and a 15mm wide base. The 38mm section has a 25mm wide top flange and a 18mm wide base. The profile is shown in a 3D perspective view at the bottom left, highlighting its L-shaped design. The overall length of the trim is 3050mm.
