WonderWal

1m x 2m Expandable Trellis

Made from P.E. or vinyl material and real willow backing frame, these Trellis are a fantastic way to hide unsightly areas of your garden such as oil tanks & bins. They are easily installed and can be secured to any surface using either cable ties, screws or nails. These trellis are expandable.

Click Clack flooring

Why choose **Click Clack** Decking Tile?

- ✓ Hides cracked concrete surfaces
- ✓ Excellent drainage ability
- ✓ No skill required
- ✓ Extremely low maintenance
- ✓ Quick and easy installed
- ✓ Wide usage and application

The **Click Clack** system is a new concept generated from the traditional flooring tile, which is easier and quicker to lay, compared to the traditional tile. The pieces click together easily by a simple click-clack action.

Each tile has a plastic grid backing with tabs and corresponding slots on alternating sides. This helps each tile click into place and hold securely.

No mess, no adhesive, no grout. No special tiling skills are required. These tiles are durable, hard wearing and UV resistant. Suitable for all outdoor applications.

QUALITY INSTANT DECKING
